## WHY HIGH SCHOOL ACTIVITIES?

### THE BEST BARGAIN IN EDUCATION IS SCHOOL ACTIVITIES.

High school activities programs will attract more than ten million participants this year. Nearly 50% of the student body of most schools will be involved in some phase of the interscholastic activities program. In virtually all of these schools, the interscholastic activities program will require school board subsidy of about 2% of the total school budget. One half the students will be benefitted at about two percent of the school budget.

The American College Testing Service recently completed a study which compared the value of four factors in predicting student success. The factors were: (1) High grades in high school, (2) High grades in college, (3) High grades on the ACT, (4) Achievement in extracurricular activities. Three of the four factors were found to have no predictive value. The only factor which could be used to predict success in later life was achievement in extracurricular activities.

Educational investigators have conducted studies which demonstrated that students involved in interscholastic programs: (1) Find increased educational opportunities available to them as a result of their participation, (2) Have higher grade point averages than those who do not participate in activities (3) Have better attendance records, and, (4) Fewer discipline problems than non-participants.

Athletics and other extracurricular activities are a real-life competency test. Students learn to react in artificial stress situations to better handle real-life situations as adults. Except for activities, school programs that prepare students in this area are usually minimal or missing entirely.

There is no other comparable bargain found in or out of education, even at twice the cost.

The Arkansas high school football playoffs are the climax of one phase of the high school activities program in Arkansas. We welcome you and hope you enjoy the games. We encourage you to support your team, but reinforce the educational aspect of activities by being considerate of the other schools' fans and adhering to conduct consistent with good sportsmanship.

# THE ARKANSAS ACTIVITIES ASSOCIATION

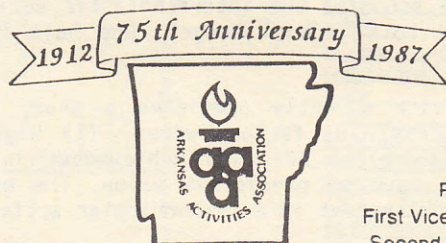

## WELCOMES YOU TO THE FOOTBALL PLAYOFF FINALS!

The Arkansas Activities Association is made up of 500 member schools who comprise its Governing Body. The Governing Body meets once a year in late July to discuss and vote on proposals which, if adopted, become a part of the AAA Constitution or Bylaws. The voting power of each school rests with the administration in making decisions affecting the schools. From the total membership sixteen administrators are elected to the AAA Executive Committee representing eight activity districts.

The Executive Committee directs the AAA staff in carrying out day-to-day and season-to-season activities as the staff interprets and administers game rules and participation rules. The AAA is charged with the administration or sanctioning of state events involving numerous extracurricular activities, both athletic and non-athletic.

The Arkansas Activities Association appreciates your involvement in the high school football playoff and your continuing support of high school activities programs.
